

PIT histograms for camehl/households using prerank: mean

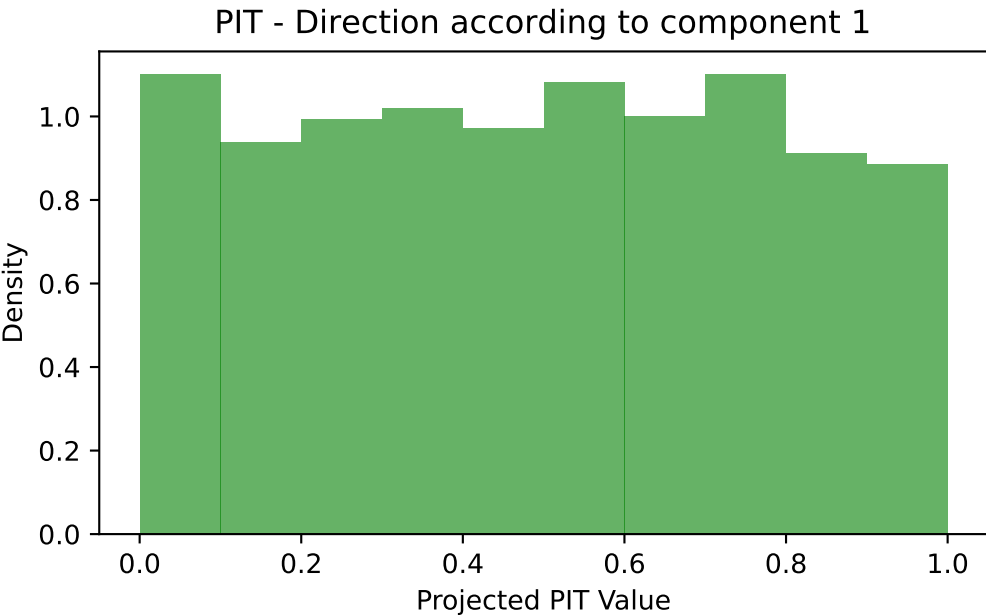

PIT histograms for camehl/households using prerank: variance

PIT - Direction according to component 1

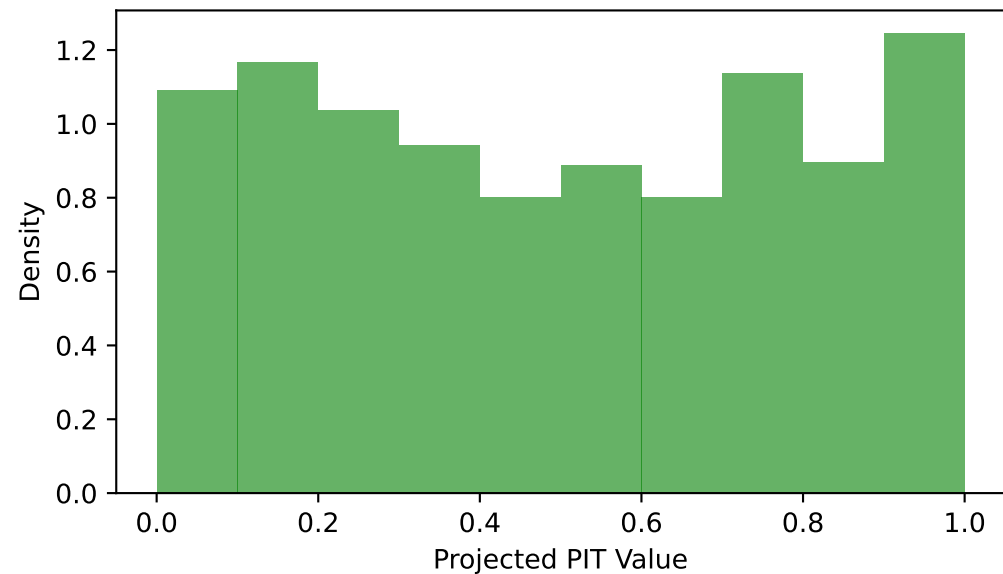

PIT histograms for camehl/households using prerank: dependency

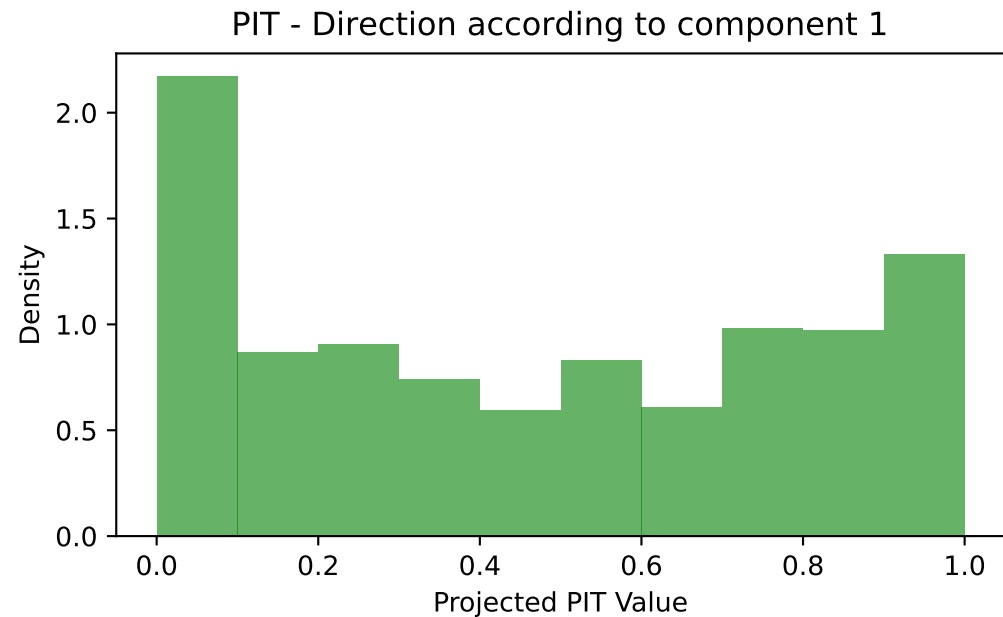

PIT histograms for mulan/scm20d using prerank: mean

PIT - Direction according to component 1

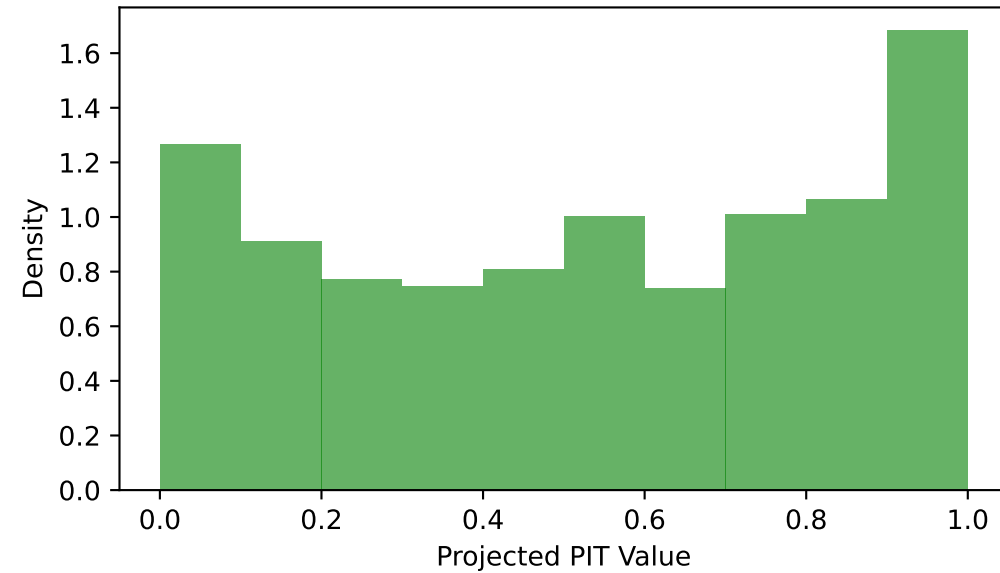

PIT histograms for mulan/scm20d using prerank: variance

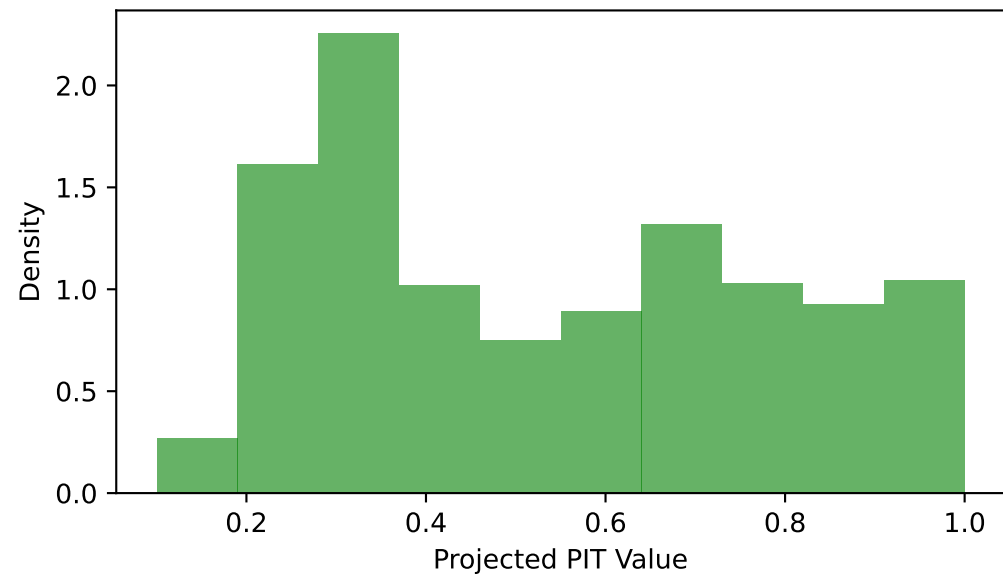

PIT histograms for mulan/scm20d using prerank: dependency

PIT - Direction according to component 1

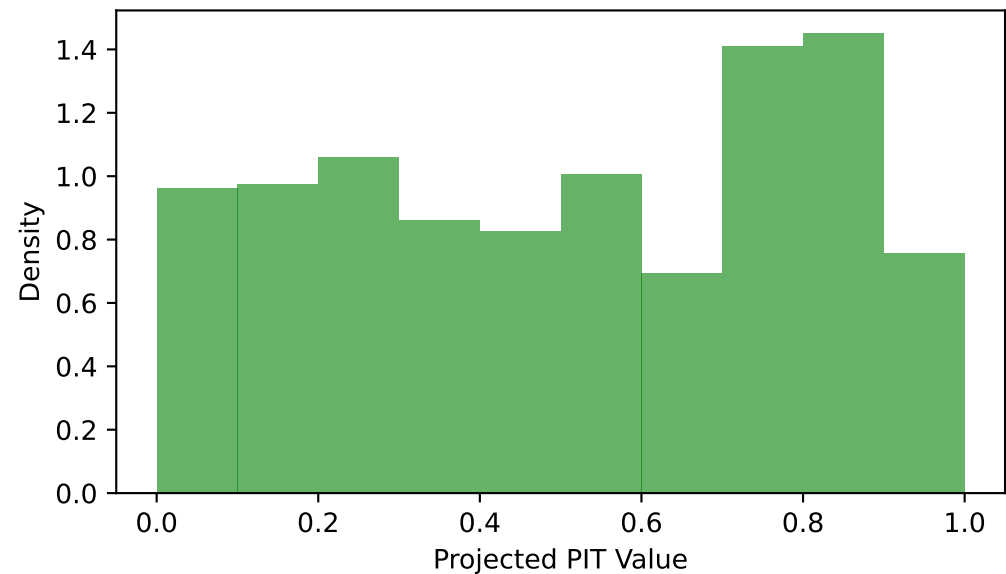

PIT histograms for mulan/rf2 using prerank: mean

PIT - Direction according to component 1

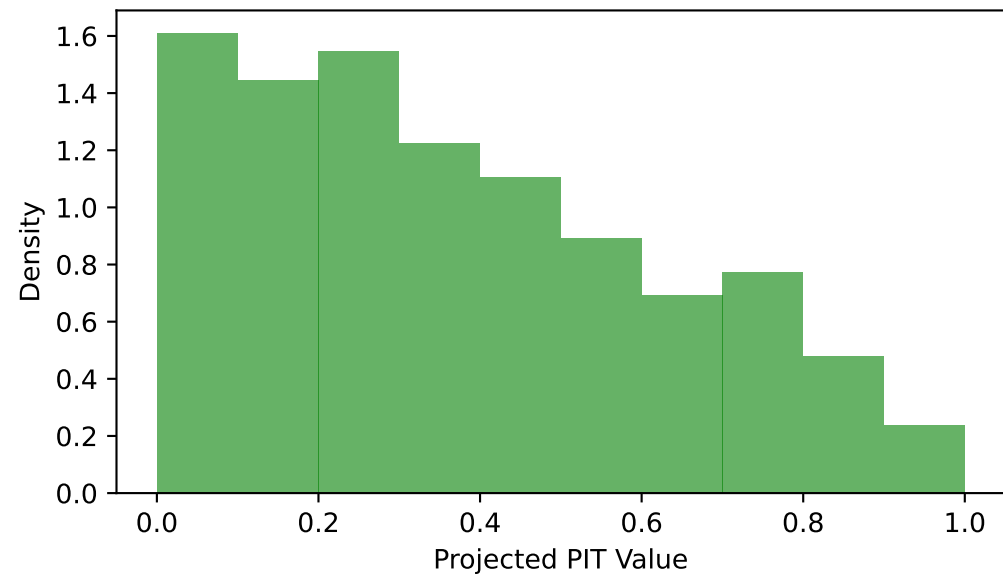

PIT histograms for mulan/rf2 using prerank: variance

PIT - Direction according to component 1

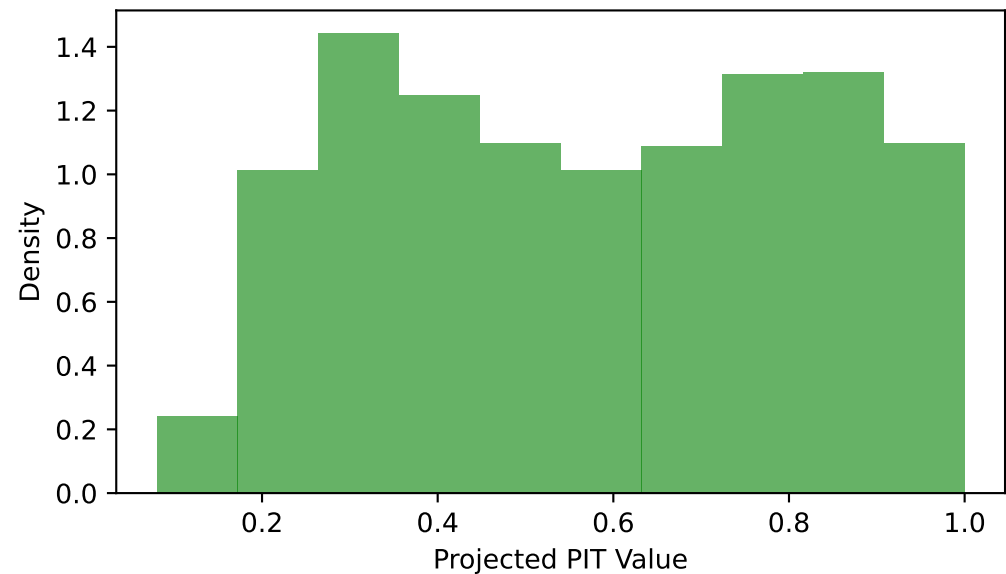

PIT histograms for mulan/rf2 using prerank: dependency

PIT - Direction according to component 1

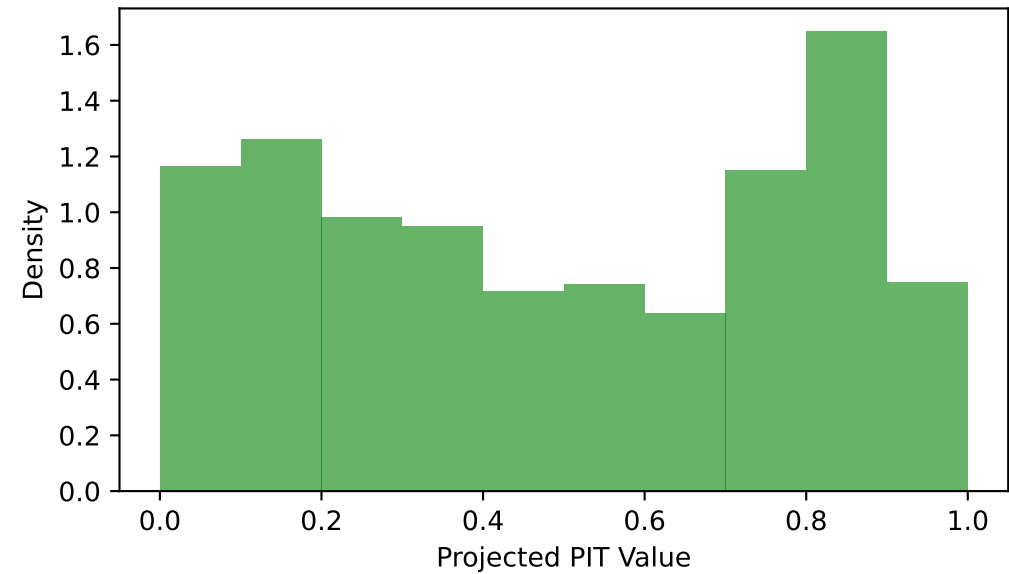

PIT histograms for mulan/rf1 using prerank: mean

PIT - Direction according to component 1

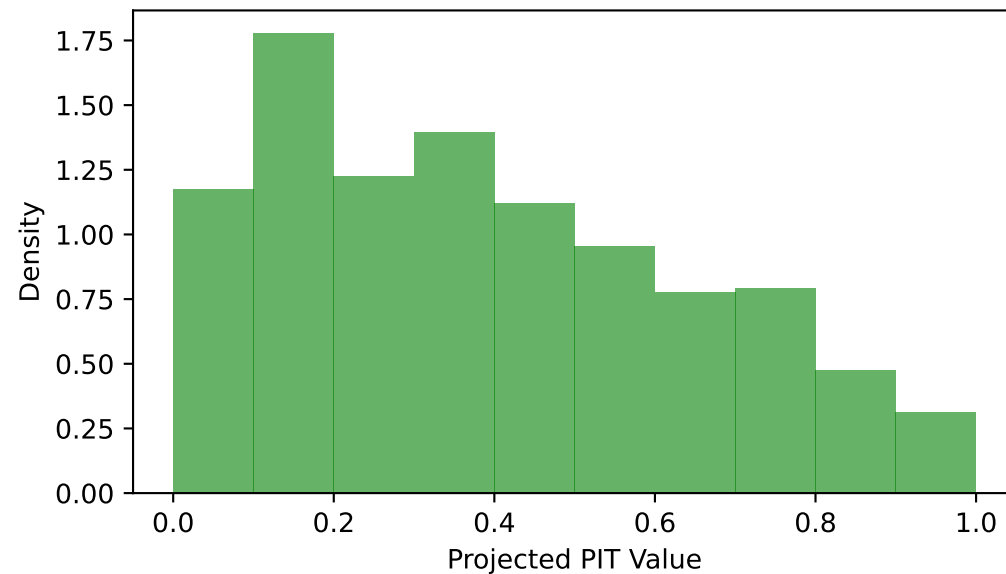

PIT histograms for mulan/rf1 using prerank: variance

PIT - Direction according to component 1

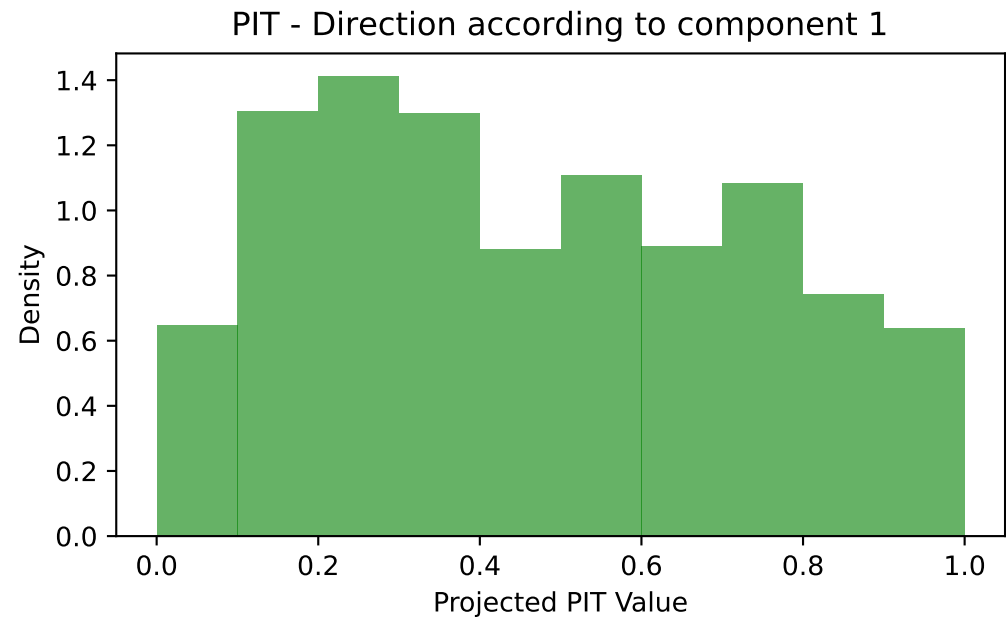

PIT histograms for mulan/rf1 using prerank: dependency

PIT - Direction according to component 1

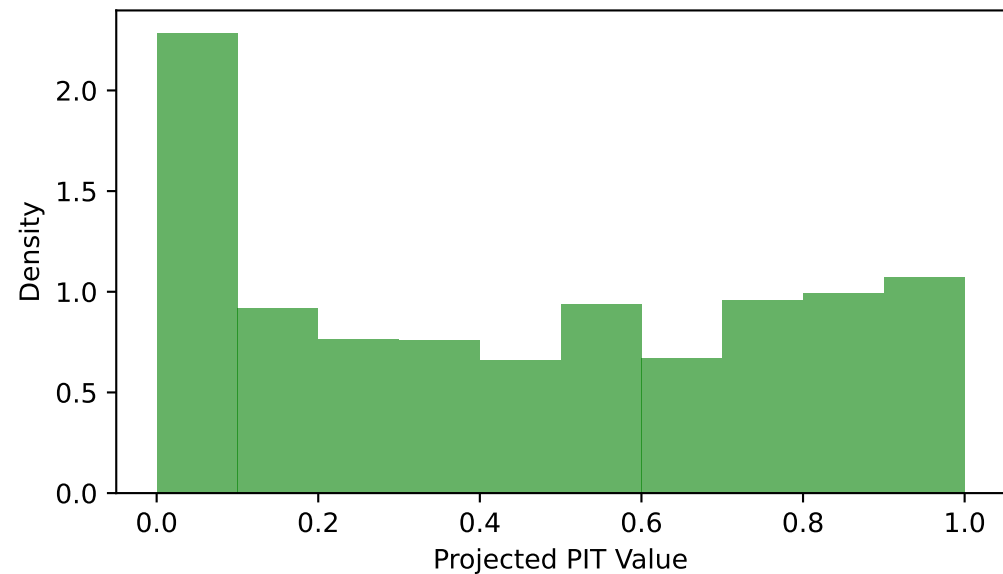

PIT histograms for mulan/scm1d using prerank: mean

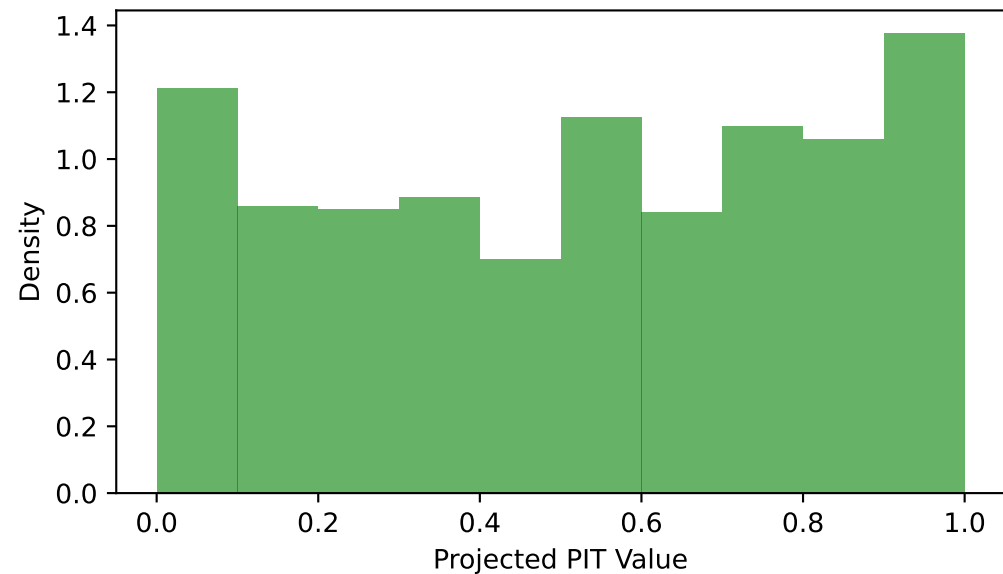

PIT histograms for mulan/scm1d using prerank: variance

PIT - Direction according to component 1

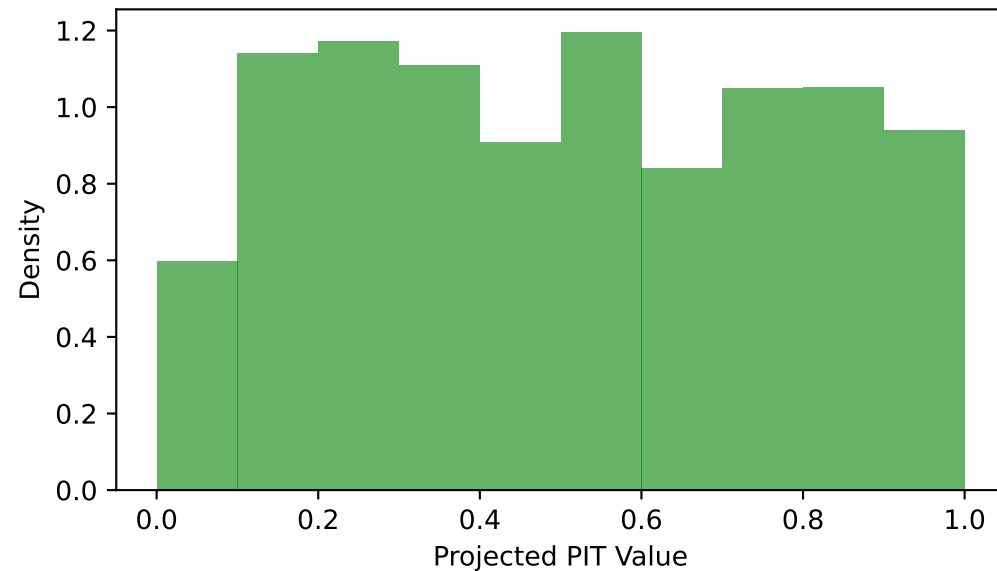

PIT histograms for mulan/scm1d using prerank: dependency

PIT - Direction according to component 1

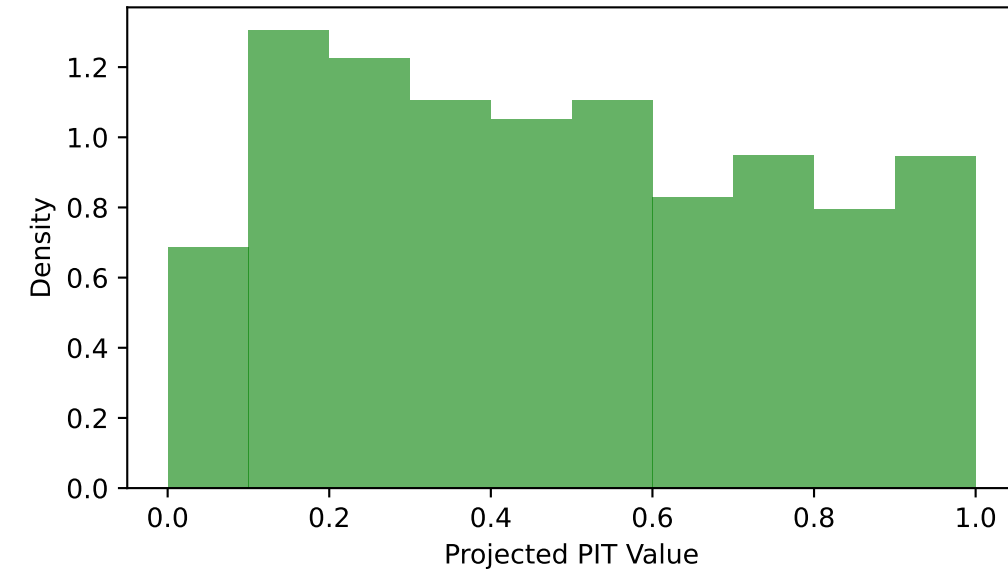

PIT histograms for feldman/meps_21 using prerank: mean

PIT - Direction according to component 1

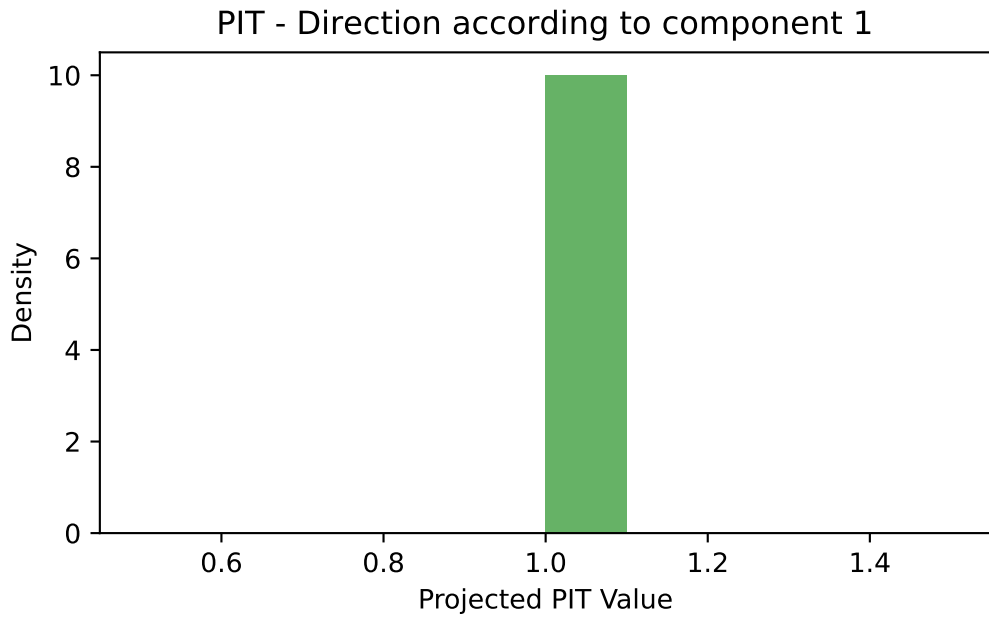

PIT histograms for feldman/meps_21 using prerank: variance

PIT - Direction according to component 1

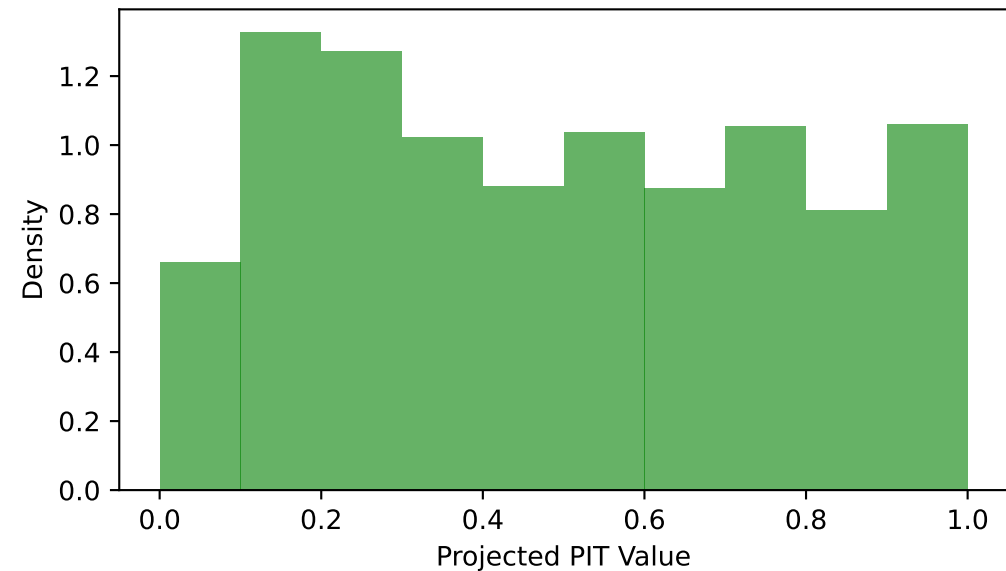

PIT histograms for feldman/meps_21 using prerank: dependency

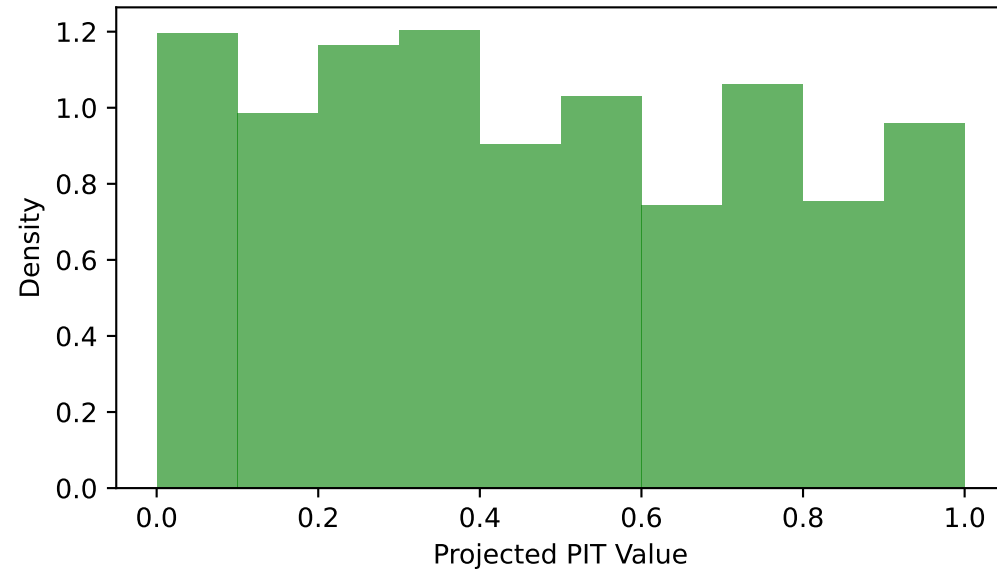

PIT histograms for feldman/meps_19 using prerank: mean

PIT - Direction according to component 1

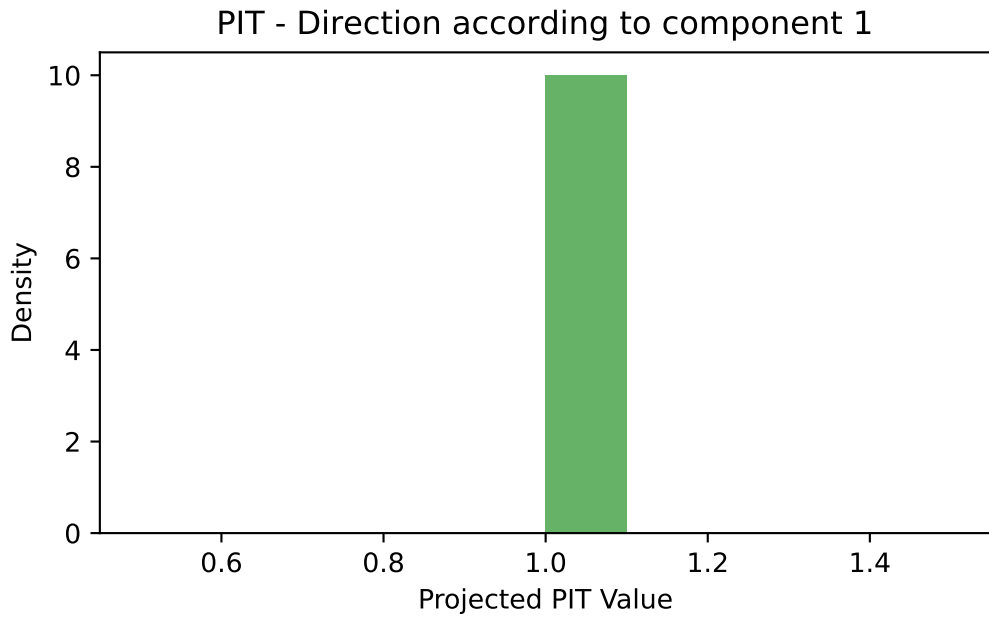

PIT histograms for feldman/meps_19 using prerank: variance

PIT - Direction according to component 1

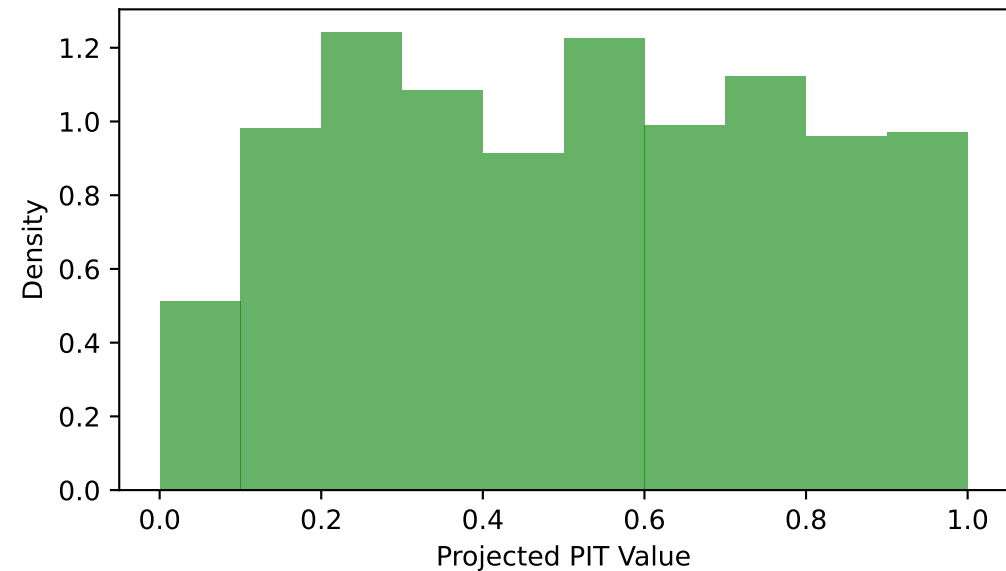

PIT histograms for feldman/meps_19 using prerank: dependency

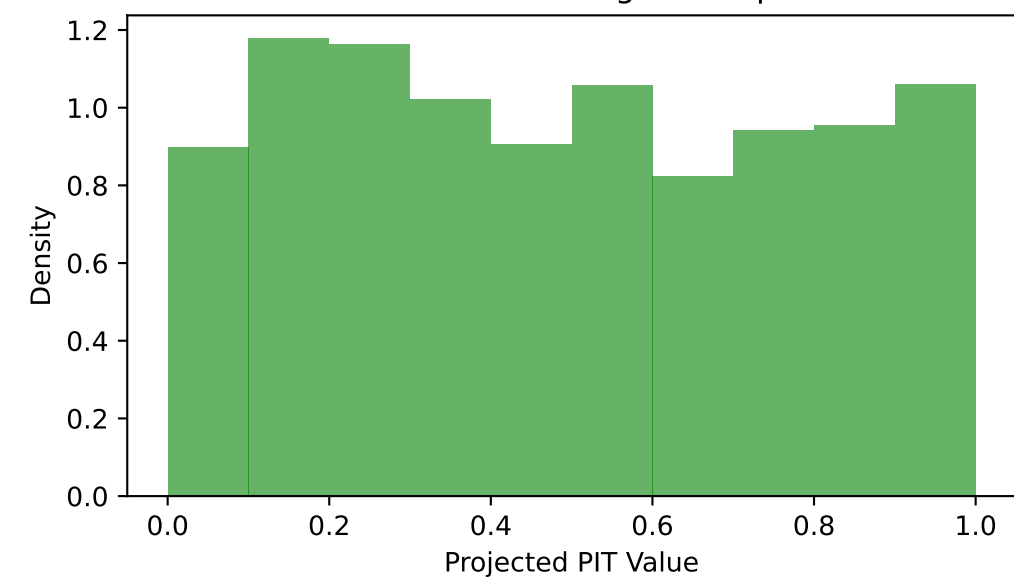

PIT histograms for feldman/meps_20 using prerank: mean

PIT - Direction according to component 1

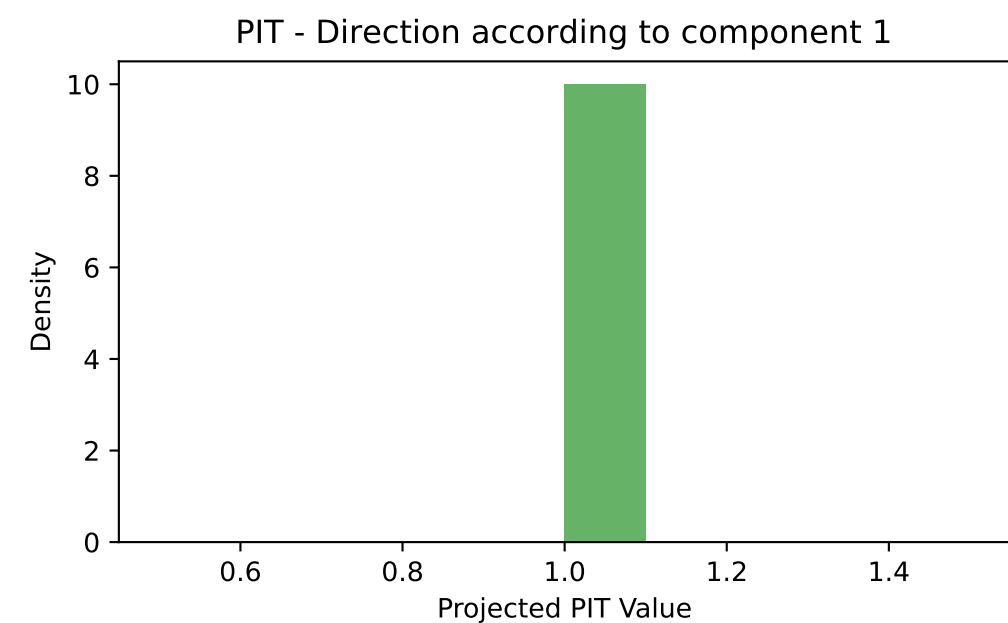

PIT histograms for feldman/meps_20 using prerank: variance

PIT - Direction according to component 1

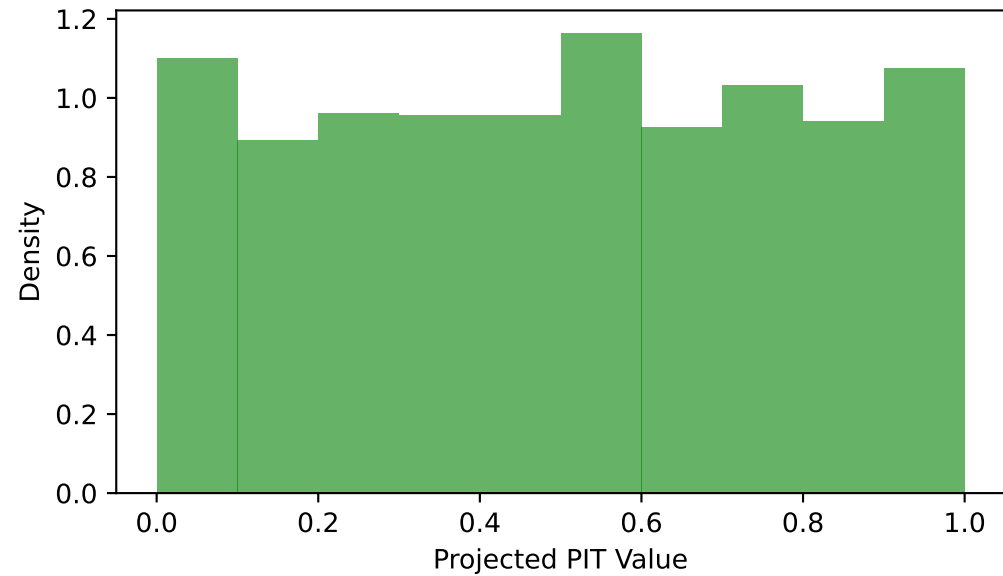

PIT histograms for feldman/meps_20 using prerank: dependency

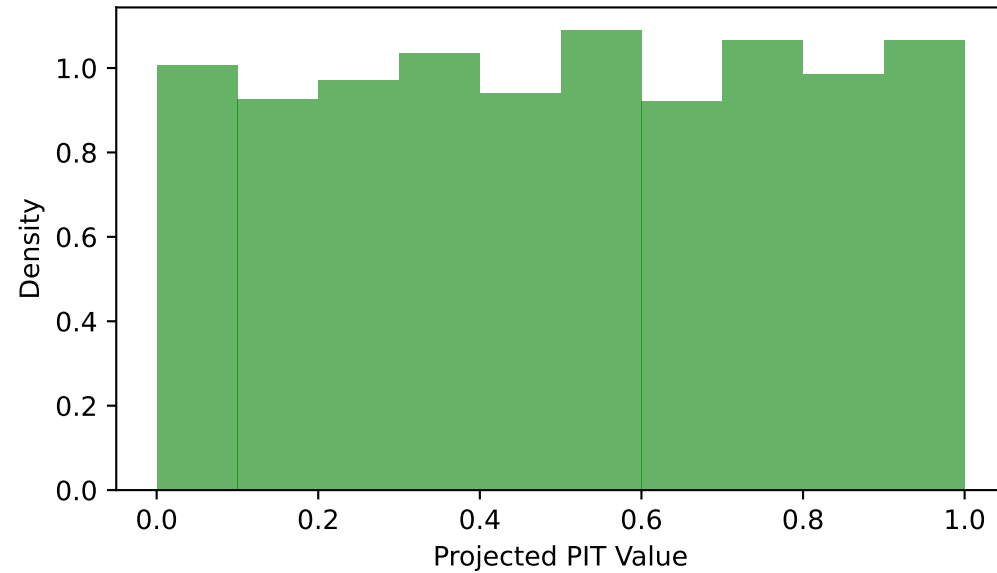

PIT histograms for feldman/house using prerank: mean

PIT - Direction according to component 1

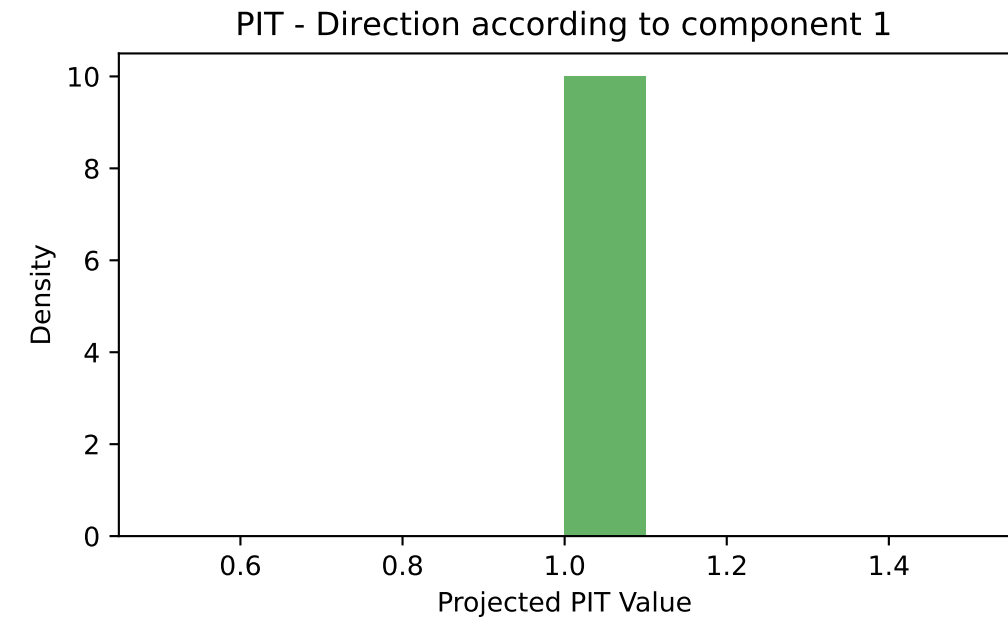

PIT histograms for feldman/house using prerank: variance

PIT - Direction according to component 1

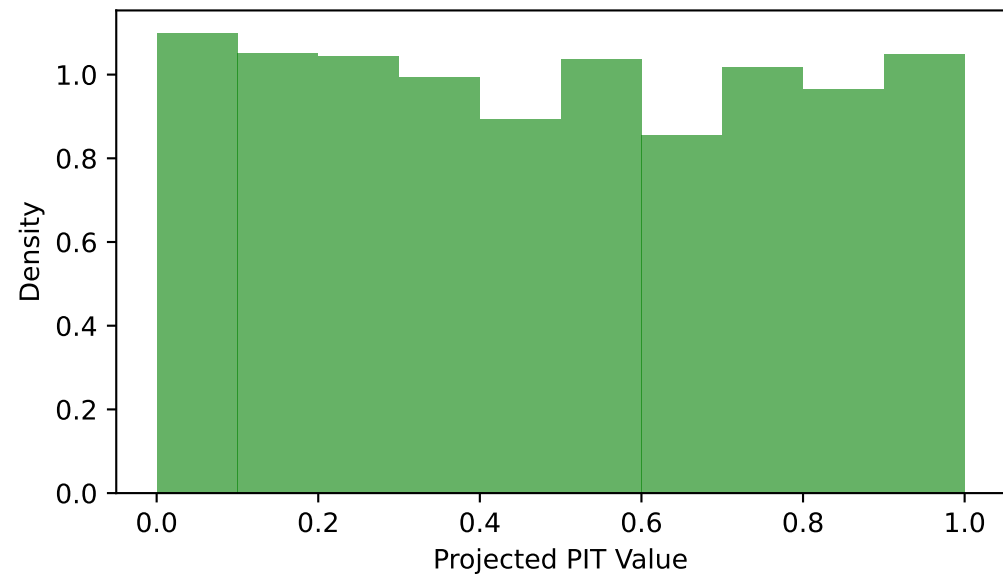

PIT histograms for feldman/house using prerank: dependency

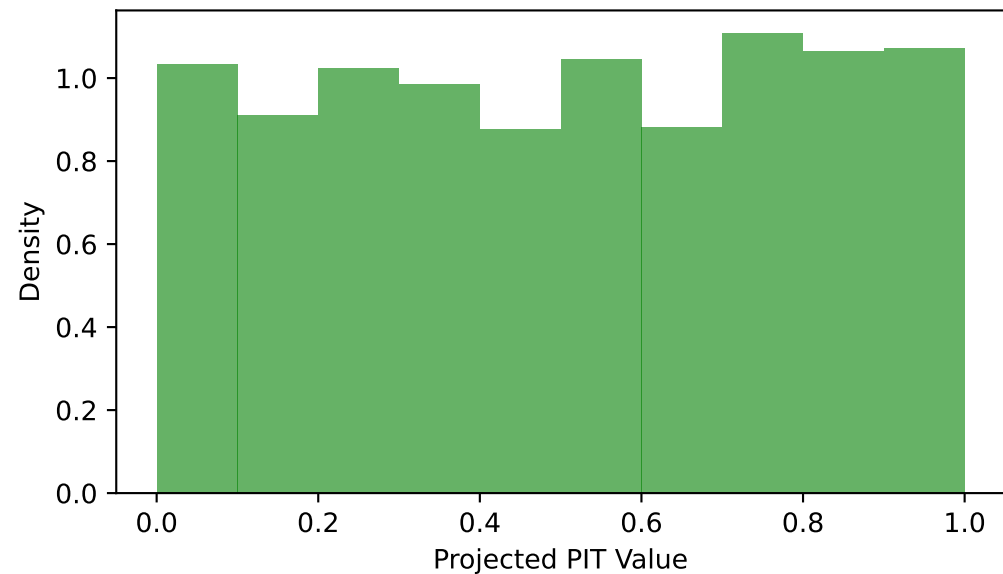

PIT histograms for feldman/bio using prerank: mean

PIT - Direction according to component 1

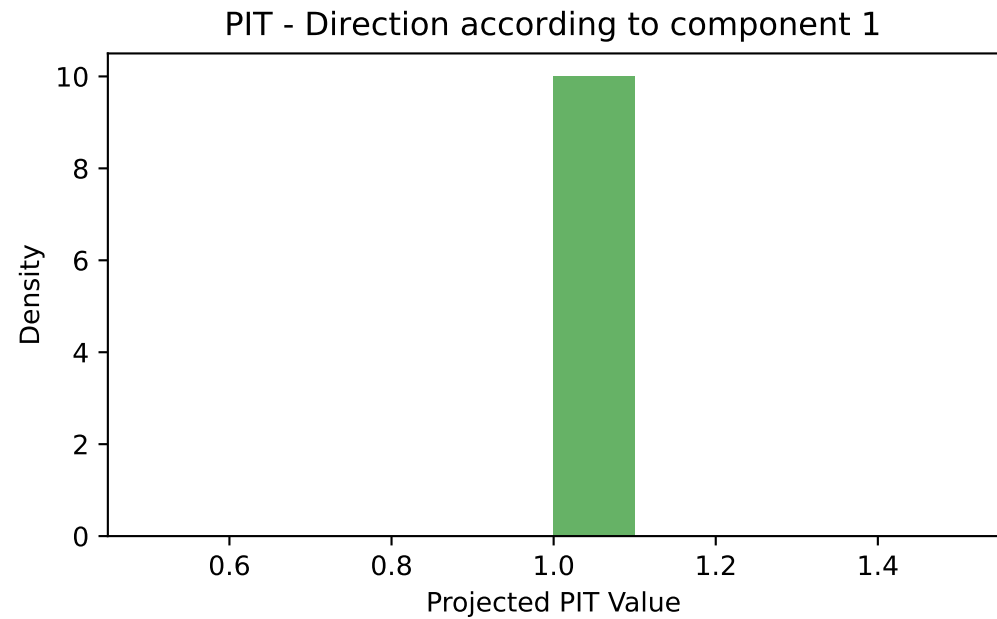

PIT histograms for feldman/bio using prerank: variance

PIT - Direction according to component 1

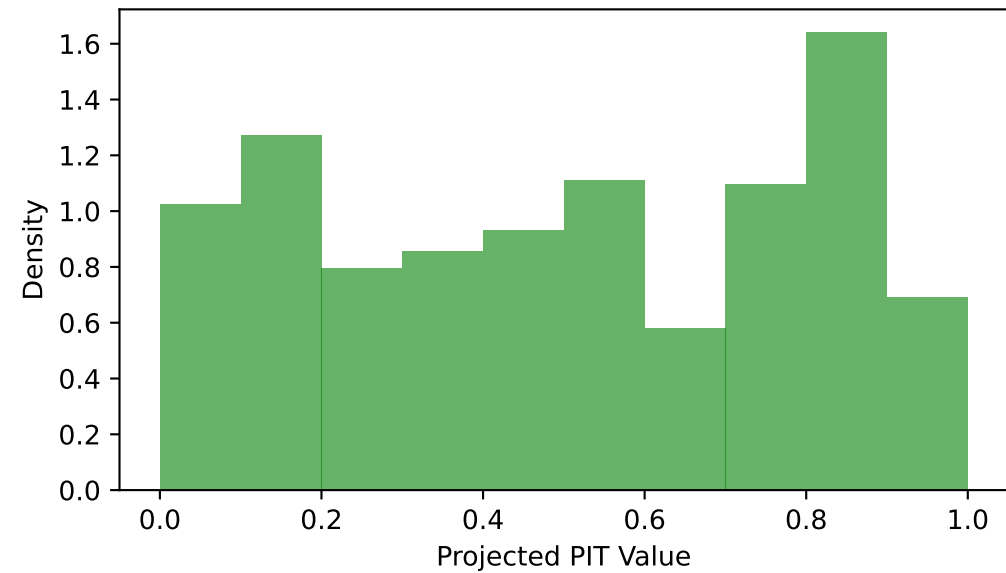

PIT histograms for feldman/bio using prerank: dependency

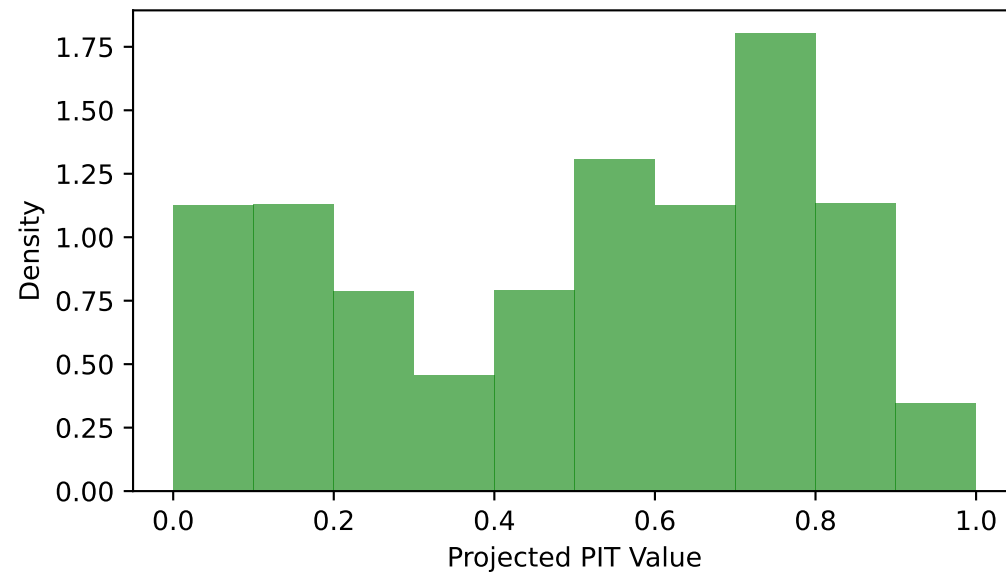

PIT histograms for feldman/blog_data using prerank: mean

PIT - Direction according to component 1

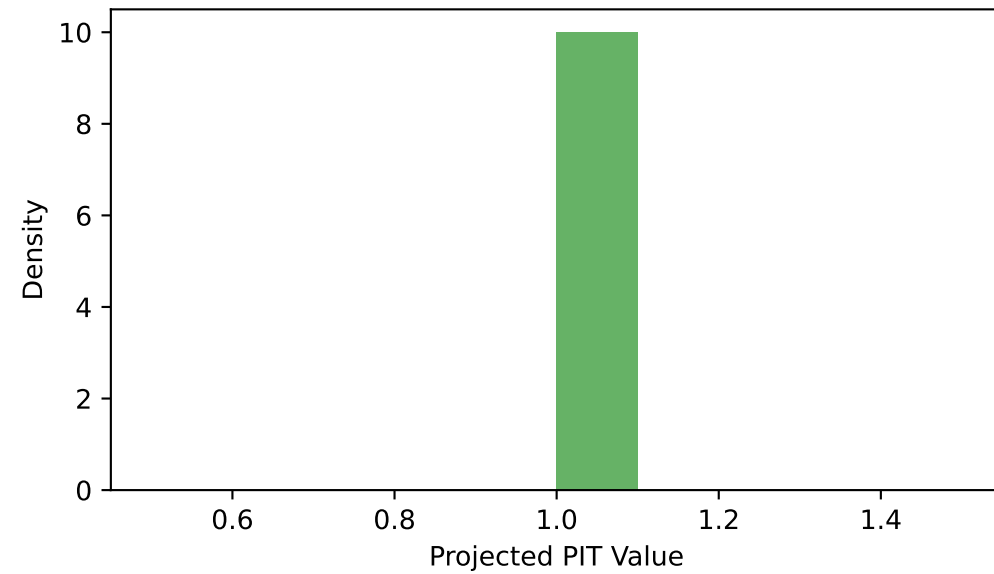

PIT histograms for feldman/blog_data using prerank: variance

PIT - Direction according to component 1

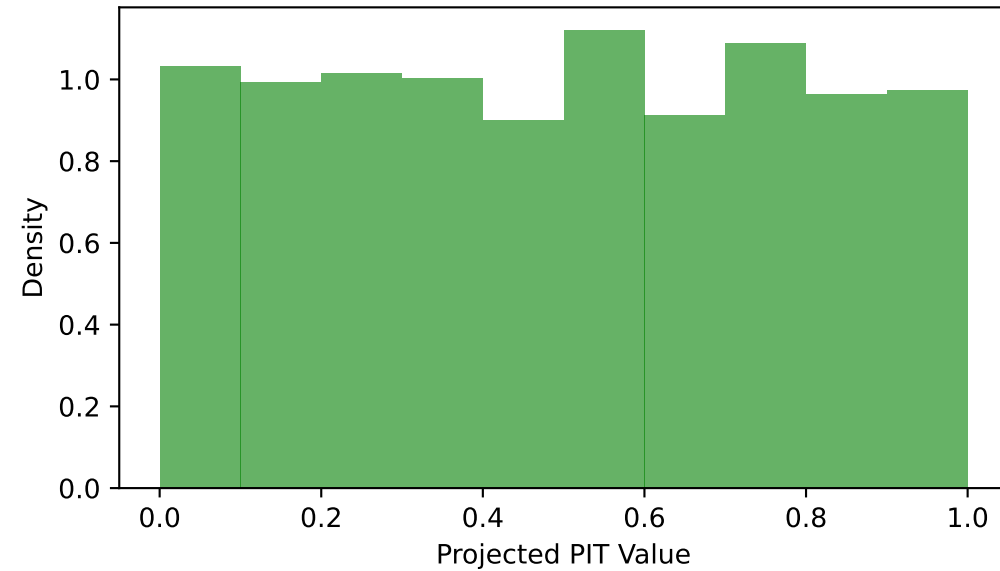

PIT histograms for feldman/blog_data using prerank: dependency

PIT - Direction according to component 1

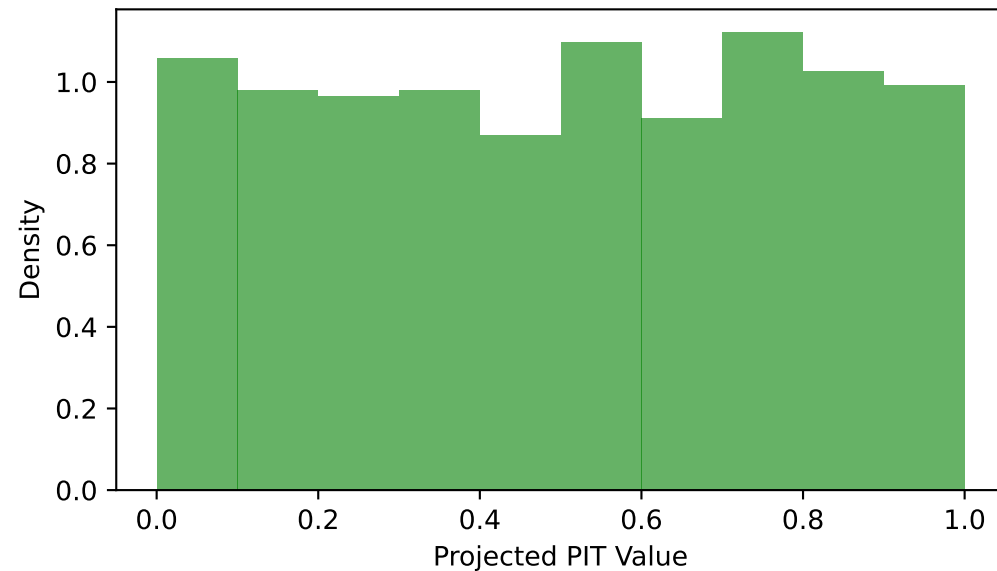

PIT histograms for del_barrio/calcofi using prerank: mean

PIT - Direction according to component 1

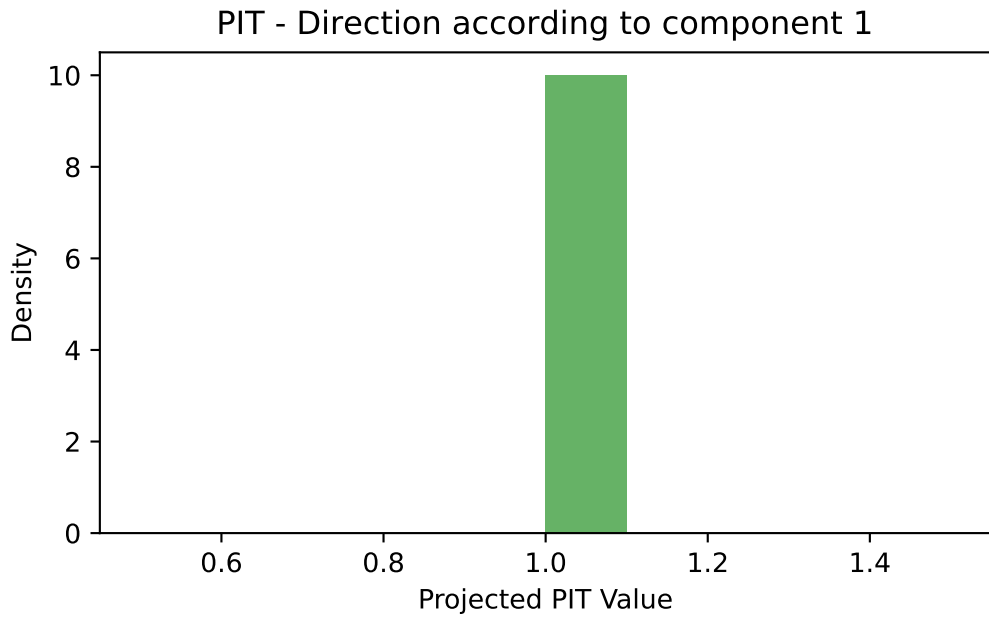

PIT histograms for del_barrio/calcofi using prerank: variance

PIT - Direction according to component 1

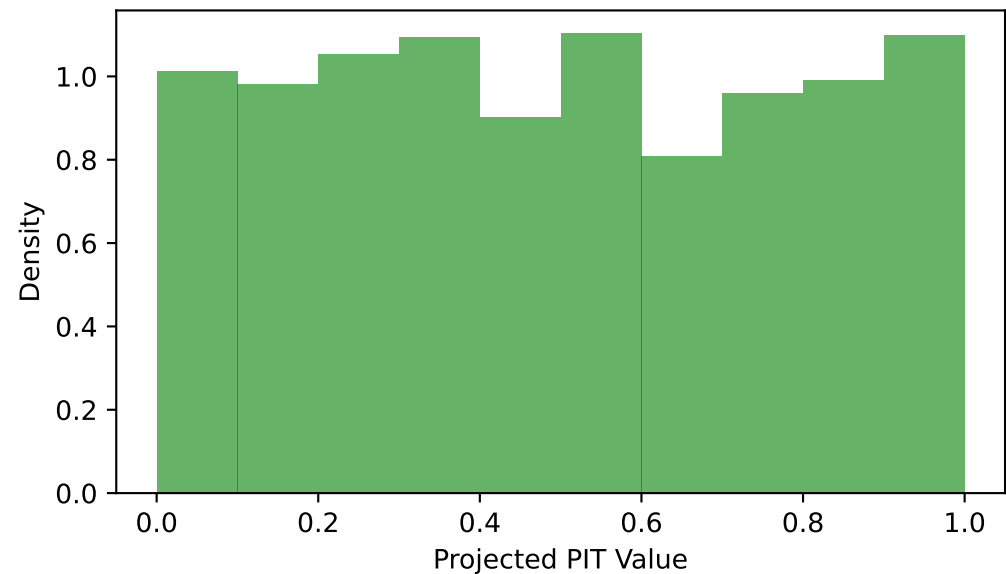

PIT histograms for del_barrio/calcofi using prerank: dependency

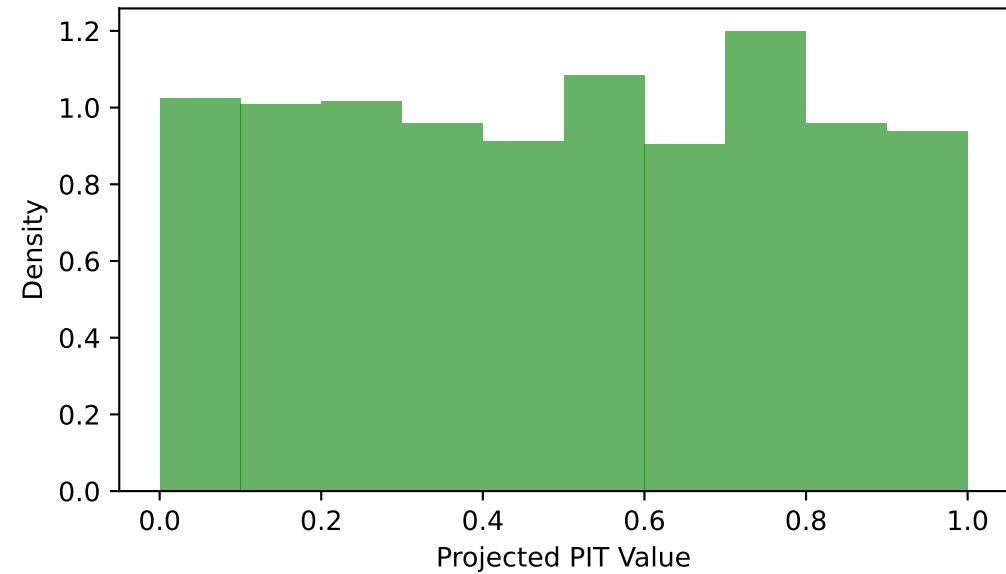

PIT histograms for wang/taxi using prerank: mean

PIT - Direction according to component 1

PIT histograms for wang/taxi using prerank: variance

PIT - Direction according to component 1

PIT histograms for wang/taxi using prerank: dependency
